SECTION 1

INTRODUCTION

Welcome to How Tomorrow Moves.

CSX Transportation is North America's largest Class I Railroad east of the Mississippi River. With a 21,000-mile network serving 23 states, Washington, D.C., Ontario and Quebec, CSXT can help you tap into the economies of rail no matter where you're shipping to or from.

...and how we work for you.

We strive to provide all of our customers with cost efficient, environmentally friendly transportation solutions that are backed by unmatched customer service. This publication provides the terms and conditions of service associated with CSX Transportation.

If you have any questions about the terms and conditions in this publication, please contact us at CSXT8100questions@csx.com.

If you have questions about the electronic tools described in this publication, please contact us at 1-877-ShipCSX (1-877-744-7279).

We maintain a contact list for distributing updates and changes to these Terms and Conditions. We will add you to our distribution list for our updates and changes if you send us an email request at CSXT8100Questions@csx.com.

SECTION 1, CONT.

RULES

GENERAL RULES (1.1)

Thank you for partnering with CSX Transportation, Inc. (“CSXT” or “the company”) for your freight and logistics needs. The purpose of this publication is to provide our Customers and their customers with a clear understanding of the rules and fees associated with our network, including charges for switches, demurrage, weighing, and private railcar storage fees.

The Terms and Conditions of Service published here apply to all transportation services provided by CSXT and all railcars while on our network. If your shipment involves interline service, the rules, terms, and conditions of service published by each other participating Carrier apply once your shipment enters its network.

These Terms and Conditions supersede and replace the former Tariff 8100 and its predecessors. Specific terms and conditions for line-haul transportation, including rates, are published in commodity-specific price lists, price quotes, and contracts. In the event of any conflict between the terms found here and any other CSXT publication or contract, the terms of the other CSXT publication or contract takes precedence.

By arranging for services with CSXT, a Customer, or any third party acting under the direction or on behalf of a Customer, authorizes and accepts all the rules, requirements and applicable charges contained within this publication. In addition, any action taken by a Customer, or any other Carrier, that:

- Initiates,
- Accepts delivery of, or
- Affects a movement or supplemental service in CSXT’s network

...also constitutes acceptance by that Customer or Carrier of all rules, requirements and applicable charges established here. Services expressly described herein are the only common carrier services offered by CSXT.

Applicability and Interpretation (1.1.1)

Unless explicitly stated otherwise in an existing publication or contract, all references made to a former Tariff CSXT-8100 or its predecessors now refer to the specifics established here.

In these Terms and Conditions:

- References to Section numbers in these Terms and Conditions refer to the content they denote (Specific item numbers that may have been updated or changed are referenced for your convenience in a corollary document on CSX.com)
- Capitalized terms not otherwise defined within these Terms and Conditions are defined in the Glossary appearing in Section 9.4
- Anywhere it states that CSXT “may” act, the use of “may” means the action is at CSXT’s discretion

In the event that any term, condition, or requirement of these Terms and Conditions is found to be void or unenforceable, such findings shall not be construed to render any other term, condition, or requirement of these Terms and Conditions either void or unenforceable, and all other terms, conditions, and requirements shall remain in full force and effect.

Station Lists and Conditions (1.1.2)

These Terms and Conditions incorporate the Station condition requirements set forth in Tariff OPSL 6000-Series. These include requirements for:

- Addition and abandonment of Stations
- Changes in Station names
- Restrictions on the acceptance or delivery of freight
- Changes in Station facilities

If a Station is abandoned, the rates to and from that Station are inapplicable on and after that date.

Inclusion of Tariffs, Items, Notes, Rules, etc. (1.1.3)

These Terms and Conditions incorporate the non-conflicting provisions of the Uniform Straight Bill of Lading, as well as CSXT’s other rules, all applicable

statutes, regulations, AAR and other industry standards, requirements, and procedures that would apply without being specifically listed.

For more specific provisions regarding particular Commodities, see:

CSXT 4048 – with rules regarding Hazardous Waste
CSXT 4049 – with rules regarding Hazardous Materials
CSXT 8082 – with rules regarding private railcars in coal service
CSXT 8200 – with rules regarding coal, coke and iron ore

Force Majeure (1.1.4)

CSXT and Customers are excused from their obligations under these Terms and Conditions to the extent prevented or delayed by a Force Majeure Event. The party claiming force majeure must notify all parties as soon as practical upon the beginning and ending of the force majeure condition.

Force Majeure Events include Acts of God, authority of law, labor disputes, weather impediments, fire, explosion, war, insurrection, threatened or actual acts of terrorism or other like causes beyond one's reasonable control. Downturns in the economy and changes in market conditions are NOT considered force majeure conditions.

Electronic Information Sharing and Notices (1.1.5)

CSXT maintains an online system, ShipCSX, to help Customers plan, ship, trace, and pay for their Shipments. CSXT also provides notices relating to railcar arrival and placement through ShipCSX. Customers needing access to ShipCSX can contact our E-Business team at 1-877-ShipCSX (1-877-744-7279), Prompt 2, Prompt 1. Customers must maintain accurate e-mail addresses on file with CSXT to permit the delivery of electronic notices.

- “In writing” notifications can include e-mail or other electronic communications

Charges in U.S. Dollars (1.1.6)

All charges are in U.S. Dollars, except when expressly listed in Canadian Dollars.

Charges are Cumulative (1.1.7)

All charges established by these Terms and Conditions are cumulative, and may be assessed in any combination.

Agents (1.1.8)

CSXT may rely on the actions and representations of a Customer's Agents.

Terms of Contract Carriage (1.1.9)

When a Customer tenders a Shipment pursuant to a Shipment Instruction that references a private price not otherwise incorporated into a contract then in effect, the terms of CSXT's general transportation terms shall apply. Those terms are available at <http://www.csx.com/index.cfm/customers/prices-tariffs-fuel-surcharge/> and then click “CSXT Private Price List and Contract”

Rebiling of Charges (1.1.10)

Occasionally CSXT is billed for charges due to the actions of Customers or other railroads. CSXT may rebill (pass through) such charges to the party responsible for CSXT being billed, and such party is responsible for the payment of those charges.

SECTION 1, CONT.

RULES

SERVICE RULES (1.2)**Shipping Instructions (1.2.1)**

CSXT accepts Shipping Instructions and accessorial service requests delivered through ShipCSX.com or via previously agreed-upon means of Electronic Data Interchange. In emergencies, Customers may fax Shipping Instructions to 800-448-8984 at an additional charge of \$50.00 per faxed Shipping Instruction for carload shipments and \$500.00 per faxed Shipping Instruction for unit trains.

The following services are not available:

- Railcars tendered as Held for Inspection, Order, or Order Notify
- Railcars consigned in any manner that requires CSXT to hold a railcar and not make delivery until a proper release order, or security (in accordance with Uniform Freight Classification, Rule 7) for the goods, is provided

Line-Haul Transportation Service (1.2.2)

CSXT defines line-haul transportation as the movement of one or more railcars from station to station; the pulling of the railcar(s) from the origin and placement of the railcar(s) at the destination; and includes the movement of an empty Private Car back to its origin or another specified destination if such return movement occurs within six months of the most recent outbound, loaded move. CSXT establishes each location's service schedule.

- Private Cars are automatically reverse routed to their last point of origin or interchange unless instructions to the contrary are submitted in a timely manner or the return involves certain international moves
- Changes in routing of empty railcar movements are considered Diversions
- Railcars with more than 1,000 pounds of lading, and certain international moves, are not considered empty, and may require a separate Shipping Instruction

All line-haul transportation service is provided with reasonable dispatch.

Updates of Universal Machine Language Equipment Register ("UMLER") (1.2.3)

When a Customer tenders a railcar they own or lease to CSXT, the Customer must:

- Update the UMLER to reflect the Customer's interest in the railcar; or
- Provide real-time access to its system for identifying their railcars to CSXT

Diversion and Other Changes to Shipping Instructions (1.2.4)

In a fluid marketplace, we understand that plans may change and Customers may need to request a Diversion or other changes in their Shipping Instructions. CSXT may charge \$275.00 per railcar, or \$2,750.00 for blocks of 10 or more railcars, for a Reconsignment or a customer requested change CSXT makes to the Shipping Instruction that does not affect the movement of the Shipment. In order to protect the efficiency of our network, CSXT will assess a fee of \$275.00 per railcar diverted or involved in the change of instruction, or \$2,750.00 for blocks of 10 or more railcars.

- Each Diversion request or other requests for changes in a Shipping Instruction will only be accepted from the Freight Payer or its Agent, and
- The Freight Payer is responsible for any and all additional line-haul and other charges resulting from the Diversion

In order to serve you with the best possible transportation solution, we will exercise commercially reasonable efforts to execute a Diversion request while the railcar is in our possession. However:

- We reserve the right to refuse a request for Diversion
- We cannot accept Diversion requests when the affected railcar(s) have reached an interchange with another railroad or a serving yard

Diversion orders should be:

- Submitted through ShipCSX
- Emailed to CSRDivisions@csx.com

Late Delivery of Shipping Instructions (1.2.5)

Customers have the responsibility to accurately and timely submit Shipping Instructions. Loaded railcars moving without Shipping Instructions slow a railroad's efficiency and customer deliveries. If a loaded railcar reaches a CSXT serving yard without complete Shipping Instructions, a late fee of \$500 per railcar may be assessed. For example, such fees may be assessed when such a railcar is moved:

- Pursuant to informal instructions provided by the Consignor
- Because it is mixed in with railcars with complete Shipping Instructions
- Because it is situated in a location that indicates, due to the established practice at the facility, that the Consignor wants CSXT to move the railcar

Any charges that accrue due to incomplete or missing Shipping Instructions are the responsibility of the Consignor and Freight Payer.

Safe Transportation Of Food (1.2.6)

Customers have the responsibility to ensure compliance with the obligations, if any, imposed by the Sanitary Food Transportation Act and its implementing regulations, including all the requirements of 15 C.F.R. Subpart O, §§1.900-1.934.

SECTION 1, CONT.

RULES

EQUIPMENT RULES (1.3)

In order to provide customers with quality rail service, a railroad must be able to provide customers with railcars promptly and in operational condition. We appreciate your efforts to help us manage and protect our fleet by reserving the number of Carrier Cars you actually need and by returning Carrier Cars in the same clean, functional condition you expect to receive them.

Car Ordering Rules (1.3.1)

Railcars can be ordered only for days a Customer is served by CSXT. Customers should not order more railcars than their facility can accept. To facilitate Customer railcar order planning, CSXT indicates each plant's railcar capacity in the Plant Switch module in ShipCSX.

- Railcar orders can be submitted up to six weeks in advance
- Customers must renew orders if expired and railcars are still needed for loading
- To increase or decrease a railcar order less than seven days before the railcar is due, the Customer must submit a change request via the Car Order screen on SHIPCSX
- CSXT will use commercially reasonable efforts to fulfill a changed railcar order
- No changes to a railcar order can be implemented on the day of the order or processed for the following day

Safe Loading of Railcars (1.3.2)

All railcars must be loaded in a safe and secure manner, in compliance with all laws, and in accordance with Association of American Railroad and CSXT rules and standards. Customers are liable for all damage, including damage to CSXT's track and equipment, that results from the improper loading of a railcar. Customers are also liable for all damage to Carrier Cars while in their possession. Customers are liable for costs

associated with adjustment, transfer, or proper disposal of lading that results from defects or failures of privately owned or shipper supplied railcars.

If you have any questions about loading railcars, please contact CSXT's Load Engineering and Design team at:

- 1-800-432-1032
- LEADSClosedCar@csx.com for merchandise
- LEADSOpenTop@csx.com for metals, machinery, military equipment, open top hoppers, forest products and building materials

A railcar is unsafely loaded if it exceeds the railcar's physical limits or is unbalanced. If a railcar is unsafely loaded, to the extent practicable, the Customer may be notified and given an opportunity to take corrective action.

- CSXT may apply a charge of \$750.00 for each unsafely loaded railcar; additional handling fees may also apply
- Unsafely loaded railcars shall be subject to demurrage charges until corrective action is completed
- If an additional railcar is needed to transport part of the unsafely loaded railcars, the rate for transporting that extra railcar will be determined as if it were traveling the originally billed route under the same commodity-specific public price or private contract price as the original unsafely loaded railcar

Cleaning Requirements for Carrier Cars (1.3.3)

With the exception of railroad-owned securement devices, each Carrier Car must be completely unloaded, clean and have all doors and hatch covers properly closed and secured prior to being released as "empty."

Customers are responsible for all charges arising from the Release of a Carrier Car that is not

empty and clean, including charges for cleaning the Carrier Car and getting the Carrier Car to the nearest clean-out facility. The minimum charge for services of this type is \$600.

Empty Carrier Cars Ordered and Not Used (1.3.4)

Carrier Cars that are ordered for loading but subsequently refused or cancelled are subject to the following charges:

- (A) When an empty railcar has been placed for loading and is subsequently Released to CSXT without being used in revenue service, the service of placing and pulling the empty railcar will be subject to a charge of \$330.00 per railcar
- (B) When notification is given that an empty railcar is available for placement and the order for the railcar is cancelled or the railcar is refused prior to Actual Placement, each railcar will be subject to a charge of \$165.00

Fees will not be applied to cars ordered and rejected due to mechanical faults, nor in the event that the car type does not match the car type ordered.

Furnishing Carrier Railcars That Subsequently Move on Another Carrier (1.3.5)

CSXT furnishes Carrier Cars with the expectation that Customers will use them to load and Tender Shipments that include CSXT in the line-haul. When a Customer requests a Carrier Car that CSXT provides, and that Customer tenders to another carrier, CSXT may charge, and the Customer agrees to pay, a fee of \$2,000.00 per Carrier Car.

Furnishing Carrier Cars for Switch Movements (1.3.6)

CSXT does not furnish Carrier Cars for use solely in intra-plant, or intra-district switching.

Limitations on Reloading Carrier Cars (1.3.7)

Carrier Cars may not be reloaded without the prior permission of CSXT.

Treatment of Articulated Cars (1.3.8)

For counting purposes, articulated railcars are

considered the number of railcars equal to the number of separate segments that have been joined together.

Non-CSXT Served Customer Car Orders (1.3.9)

All requests for railcars should be submitted to the Carrier that delivers railcars to the ordering facility in accordance with AAR Rule 15.

Cars That Must Be Unloaded From A Specific Side (1.3.10)

Loading a railcar in a manner that requires unloading from a single side can be unsafe, and is prohibited unless permitted by applicable AAR rules. For example, AAR rules stipulate that a railcar requiring placement for loading or unloading from a particular side or end must be placarded on both sides and the following written notification must be included on the associated Shipping Instruction: Notice to Carrier – Deliver railcar from side or end specified by placard.

RELATIONSHIP WITH OTHER RAIL CARRIERS (1.4)

For the convenience of Customers, CSXT has and will from time to time coordinate with other rail carriers for the transportation of cargo. When CSXT coordinates such transportation, whether by contract or pursuant to that rail carrier's tariff, those arrangements are made solely so that our customers do not have to arrange and contract with those rail carriers. In entering such contracts and/or tendering railcars under that tariff, and paying for the services of those rail carriers, CSXT is acting as the disclosed agent of the Customer. CSXT does not seek such transportation on its own behalf, and any such other rail carrier is not CSXT's agent in completing the transportation. CSXT does not assume or accept any responsibility or liability for the actions of any other rail carrier with regard to the transportation of any cargo. All such liability is solely the responsibility of the rail carrier whose actions give rise to the claimed liability. Each common carrier by rail is only responsible for the transportation services provided on its network.

SECTION 2

DEMURRAGE AND PRIVATE CAR STORAGE

Demurrage and Private Car Storage fees help railroads maintain efficient networks by encouraging the timely loading, unloading and release of railcars.

Demurrage is applied to Carrier Cars that are held for Customer instructions, including those waiting to be loaded or unloaded while at origin or destination. Private Car Storage fees are applied to Private Cars waiting on a railroad's tracks; usually for loading, unloading, or Shipment Instructions. Together, they help prevent railcars that you may need from sitting idly and ensure that our network doesn't become clogged with unused railcars.

DEMURRAGE (2.1)**Calculating Demurrage (2.1.1)**

CSXT calculates and bills Demurrage on a monthly basis using a debit/credit system. Carrier Cars are tracked, calculated, and billed in separate accounts based on whether they are loaded, empty, refrigerated boxcars, heavy duty flat cars, RSSMs, or other Hazardous Material railcars. The company:

- Allows one day credit for an empty Carrier Car
- Allows one day credit for a loaded Carrier Car not carrying Hazardous Materials
- Allows one day credit for a loaded Carrier Car carrying Hazardous Materials
- No credit days are available for Carrier Cars carrying RSSM

If CSXT cannot place or pull a railcar due to Customer's failure to facilitate CSXT's access to the railcar, the railcar continues to accrue debits.

At the end of each month, credited days and debited days are totaled for each Carrier Car Released at a particular Customer location:

- If total credit days exceed total debit days, no Demurrage accrues
- If total debit days exceed total credit days, Demurrage accrues
- Excess debit days, multiplied by the applicable rate, determine the Demurrage amount billed to the Customer
- Carrier Cars are tracked, calculated, and billed in separate accounts based on whether they are loaded, empty, inbound, or outbound; credits in one account cannot be used to offset debits in the other
- Excess Demurrage credits do not carry over to the next month

Debit days start at 00:01 the next scheduled service day after CSXT notifies the Customer of Constructive Placement of a railcar, or Actual Placement of a railcar. For Customers without scheduled service days, debit days start at 00:01 the day after CSXT notifies the Customer of Constructive Placement of a railcar or places a railcar.

Reloading and Demurrage (2.1.2)

There are times when a Customer may appropriate a railcar for reloading. When this happens, the Demurrage cycle stops on the unloading account (1 credit day) and begins on the loading account (1 credit day). This ensures that you will be credited with the proper amount of time to accomplish the task.

EXAMPLE

A Customer handles 35 loaded Carrier Cars during the month of July at one of its facilities. They earn 35 credits (1 credit per Carrier Car), and total 50 debit days.

$$50 - 35 = 15 \times \$105 = \$1,575$$

- Railcars that have been emptied and are to be reloaded at the same location must be “appropriated” in ShipCSX prior to reloading to receive all available Demurrage credits
- Assistance regarding reloading is available by calling 1-877-SHIP-CSX (1-877-744-7279), Prompt #2, Prompt #1

[Additional Charge for Excessive Detention of Carrier Cars \(2.1.3\)](#)

CSXT may charge an additional charge of \$100 per car per day when a specific Carrier Car (identified by car initial and number) is not Released within 15 days. This charge is in addition to the basic demurrage charge established by Section 2.1.1 and will apply to only boxcars.

PRIVATE CAR STORAGE (2.2)

[Private Car Storage Charges \(2.2.1\)](#)

Like Demurrage, CSXT calculates and bills for Private Car Storage on a monthly basis using a credit/debit system. The company:

- Allows two days credit for an empty Private Car
- Allows two days credit for a loaded Private Car not carrying Hazardous Materials
- Allows one day credit for a loaded Private Car carrying Hazardous Materials
- No credit days are available for Private Cars carrying RSSM

Private Car Storage charges are calculated like Demurrage. At the end of each month, credit days and debit days are totaled for each Private Car located on CSXT tracks pending access to a particular Customer facility:

- If total storage credit days exceed total debit days, no charges accrue
- If total storage debit days exceed total credit days, Private Car Storage charges apply
- Excess debit days, multiplied by the applicable rate, determine the Private Car Storage amount billed to the Customer
- Excess storage credits do not carry over to the next month
- Empty and loaded private railcars are tracked and

billed in separate accounts; credits in one account cannot be used to offset debits in the other

Debit days start at 00:01 the next scheduled service day after CSXT notifies the Customer of Constructive Placement of the Private railcar and stops when the Customer orders the railcar for Actual Placement. For Customers without scheduled service days, debit days start at 00:01 the day after CSXT notifies the Customer of Constructive Placement of a railcar.

DEMURRAGE AND PRIVATE CAR STORAGE APPLY TO CARS HELD FOR OTHER PURPOSES (2.3)

Demurrage or Private Car Storage charges may also apply to railcars held due to other conditions caused by a Customer, including:

- Railcars tendered to a Consignee and ultimately refused by the Consignee
- Railcars held due to being overloaded
- Railcars held while awaiting any change to the Shipping Instructions
- Railcars held short of destination due to Customer's inability to accept delivery

These Demurrage and Private Car storage fees are calculated without credit days. The number of debit days is multiplied by the applicable rate to determine the amount payable to CSXT by the Customer.

[Holding Heavy Duty Flat Car Detention Charges \(2.3.1\)](#)

CSXT may charge up to \$500 per car per day when heavy duty flat cars are held short of destination due to Customer request or a Customer's inability to receive the car.

SECTION 2, CONT.

DEMURRAGE AND PRIVATE CAR STORAGE

DEMURRAGE and PRIVATE CAR STORAGE RATES (2.4)

DEMURRAGE CREDIT (FREE) DAYS	RATE PER DAY	REFRIGERATED CAR and HEAVY DUTY FLAT CAR RATE PER DAY
1-DAY CREDIT FOR LOADING	\$105 per railcar	\$200 per railcar
1-DAY CREDIT FOR UNLOADING	\$105 per railcar	\$200 per railcar
0-DAY CREDIT FOR RAILCARS HELD FOR OTHER PURPOSES	\$105 per railcar	\$200 per railcar

PRIVATE CAR STORAGE CREDIT (FREE) DAYS	RATE PER DAY
2-DAY CREDIT FOR EMPTY RAILCARS	\$60 per railcar
2-DAY CREDIT FOR LOADED RAILCARS	\$60 per railcar
0-DAY CREDIT FOR OVERLOADS	\$60 per railcar
0-DAY CREDIT FOR RAILCARS HELD FOR OTHER PURPOSES	\$60 per railcar

PRIVATE CAR STORAGE CREDIT (FREE) DAYS	HAZMAT CARS RATE PER DAY	RSSM CARS RATE PER DAY
0-DAY CREDIT FOR LOADED RAILCARS		\$1,500 per railcar
1-DAY CREDIT FOR LOADED RAILCARS	\$175 per railcar	
2-DAY CREDIT FOR EMPTY RAILCARS	\$60 per railcar	\$60 per railcar

DEMURRAGE CREDIT (FREE) DAYS	HAZMAT CARS RATE PER DAY	RSSM CARS RATE PER DAY
0-DAY CREDIT FOR LOADED RAILCARS		\$1,500 per railcar
1-DAY CREDIT FOR LOADED RAILCARS	\$175 per railcar	
1-DAY CREDIT FOR EMPTY RAILCARS	\$105 per railcar	\$105 per railcar

For additional information on Demurrage and Private Car Storage please review our Quick Guide to Managing Demurrage and Private Storage on CSX.com at <https://www.csx.com/index.cfm/library/files/customers/publications-tariffs/guide-to-managing-demurrage/>

SECTION 3

NETWORK

No man is an island – and no facility on a rail network is, either. The 21,000 miles of track that form the CSXT network connect with tracks owned and operated by other railroads, with Sidetracks (privately owned tracks that connect to Customer facilities), and Team Tracks (tracks we make available to multiple Customers on a limited basis). In order to ensure the utmost in efficiency and hassle-free transition between these different tracks, CSX observes the following policies and requirements.

SIDETRACKS (3.1)

Most Customer facilities are accessed via Sidetracks. At CSXT, we expect to operate with a private sidetrack agreement that establishes the responsibilities and processes necessary for use of those tracks, including important issues related to local safety, and operations. In the absence of a private sidetrack agreement, the following terms and conditions govern the use of the Sidetracks. CSXT reserves the right, however, to decline service on a Sidetrack in the absence of a private sidetrack agreement.

If you have any questions regarding the design and construction of new Sidetracks, please access our Regional Development website at: <http://www.csx.com/index.cfm/customers/industrial-development/>

Access Right (3.1.1)

When a Customer orders or accepts a Shipment from CSXT, they are representing that they own or have the right to grant CSXT access to the Sidetracks and property leading to and within the Customer facility. This allows CSXT to proceed unimpeded over the Sidetracks.

- CSXT will use the Sidetracks to deliver any railcar directed to the Customer's facility by a valid Shipping Instruction (CSXT is not liable for any costs or losses arising solely from the fact of such delivery)
- CSXT may access and temporarily occupy Customer's Sidetracks when useful in the course of providing local service in the Customer's vicinity
- In the event we deliver a railcar NOT ordered or expected by the Customer, we will use commercially reasonable efforts to promptly remove the railcar

Maintenance (3.1.2)

Customers must, at their own expense, inspect, maintain, and renew Sidetracks consistent with normal operations, and in accordance with:

- The Federal Railroad Administration's Track Safety Standards (49 C.F.R. Part 213)
- Railroad Worker Safety Regulations (49 C.F.R. Part 214)

The Customer must inform CSXT's local representatives of the dates and amount of time that the Sidetracks will be out of service, whether for maintenance or other reasons.

SECTION 3, CONT.

NETWORK

In addition, Customers must keep Sidetracks free from:

- Debris and weeds
- Potholes and excavations
- Ice and snow
- Temporary or permanent structures and poles
- Other obstructions (i.e., parked vehicles)

CSXT has the right, but not the duty, to inspect Sidetracks.

CSXT will not operate over any Sidetracks that we determine are unsafe.

Close Clearances (3.1.3)

A customer shall not maintain Close Clearances in the area of Sidetracks unless:

- The customer obtains a waiver from any conflicting Governmental Requirements, and
- CSXT approves such Close Clearance in writing

Customers must install, maintain and replace at their expense any warning signs or lighting, or make other adjustments regarding Close Clearances as may be necessary, useful, or required by any Governmental Requirements or CSXT.

Construction (3.1.4)

If a Customer seeks to construct new or additional, or alter existing, Sidetracks without interruption in CSXT service:

- All construction must be done in accordance with the provisions of CSXT's current Standard Guidelines and Specifications for the Design and Construction of Private Sidetracks, and
- Customers must supply CSXT with construction plans for any addition, deletion, or modification to the Sidetracks, and obtain CSXT's written confirmation that CSXT has no objections to the proposed changes prior to making any material alterations to the Sidetrack

To facilitate safe operations and avoid interruptions of service, Customers should notify CSXT not less than 30 days prior to constructing or allowing the construction of any new tracks, public or private road, gate, tunnel, bridge, culvert, pit, gas-line, pipe, or other items on, over, under or along any part of the Sidetrack or right-of-way

Emergency Access Right (3.1.5)

CSXT may use Sidetracks for emergency operating purposes as long as the emergency operations do not materially affect the use of the Sidetracks for rail service to the Customer.

Control over Railcars (3.1.6)

CSXT surrenders possession and control of each railcar, and its contents, consigned to or ordered by the Customer when:

- A railcar has been placed on a Sidetrack, and CSXT's locomotive uncouples from the railcar, or
- CSXT's crew departs from the locomotive if the locomotive is being left with the Customer

CSXT assumes possession and control of a railcar and its contents when:

- CSXT's locomotive is coupled to the railcar, or
- When the locomotive has been left with the Customer, CSXT's crew is onboard the locomotive and has actual control over the train by initiating departure from the Private Track

Customer indemnifies CSXT against any damages that result from failing to secure railcars in their possession.

Dispatch (3.1.7)

Dispatching traffic on portions of a Sidetrack used by CSXT to provide service to Customers must be coordinated by the field personnel of CSXT and the Customer.

Hazardous Materials (3.1.8)

Hazardous Materials shall not be placed by anyone:

- On or within the twenty-five feet of Sidetracks, or
- On Customer property within 100 feet of CSXT's connecting mainline track

This does NOT apply to:

- Shipments consigned to, or ordered by, a Customer accessible by such Sidetrack, or
- Existing pipelines for the transportation of Hazardous Materials

Continuation Charge (3.1.9)

If the CSXT traffic on a Sidetrack is insufficient to justify continuing access to the CSXT network, CSXT may offer to keep its access switch in place in exchange for an annual continuation charge.

- 0-5 Annual Carloads - \$10,000
- 6-9 Annual Carloads - \$7,500

TEAM TRACKS (3.2)

CSXT generally permits Customers limited access to Team Tracks for the purpose of loading and unloading railcars.

Rules of Access to Team Tracks (3.2.1)

Safety has no exceptions: every Customer and its employees, Agents and subcontractors must comply with applicable laws, regulations, safety rules, and CSXT requirements while using a CSXT Team Track facility. In addition:

- Customers may not store materials or equipment on CSXT's property
- Permission to access the Team Track terminates immediately upon completion of loading or unloading
- Customers shall comply with all CSXT rules and policies relating to the Team Track and the instructions of CSXT's authorized personnel
- Upon completion of loading or unloading of a railcar, Customers shall leave CSXT's property in a safe and clean condition, removing all materials they brought onto CSXT's property or removed from the railcar
- A Customer must immediately vacate CSXT property if so instructed

by CSXT personnel

- Crossings of CSXT tracks by trucks or other equipment shall be made solely at public crossings unless prior alternate arrangements have been made with CSXT's Division Engineer

We will deny access to a Team Track if, in our discretion, we determine that the Customer's use of the Team Track is negatively affecting the safety of Team Track, other Customers, or our other operations.

Prohibited Materials (3.2.2)

Due to safety concerns, the following materials shall not be placed by anyone on Team Tracks or CSXT property while accessing Team Tracks:

- Hazardous Materials
- Bulk liquids of any kind

Liability at Team Tracks (3.2.3)

A Customer assumes all risks, and agrees to defend, indemnify, and save harmless CSXT and its employees from and against, all losses, costs, expenses, claims, suits, and judgments, including reasonable investigation and attorney's fees, suffered or incurred in connection with:

- Injury or death of ANY person(s), including but not limited to the agents, employees, and permittees of CSXT and Customer,
- Loss of or damage to ANY property, including but not limited to property owned or in the care, custody, or control of CSXT or Customer, and
- Environmental damage

arising from the use by a Customer, its employees, agents or contractors, of a CSXT Team Track or any associated facilities, except to the extent such injury, death, loss or damage is caused by the sole negligence, or by the gross negligence or willful misconduct, of CSXT or its employees. The foregoing obligations on the part of the Customer apply regardless of the cause of such injury, death, loss, or damage, or of any joint or concurring ordinary negligence on the part of CSXT or its employees.

SECTION 3, CONT.

NETWORK

NO RIGHT TO ACCESS CSXT TRACK (3.3)

Protecting our network is essential to maintaining our employees' safety and CSXT's service operations. No one else, including a Customer, is allowed to enter, perform any switching, or otherwise operate on any tracks owned by CSXT. If a Customer accesses CSXT track, Customer assumes all risk of loss and indemnifies CSXT against all damage, cost, liability, judgment, and expense, including attorney's fees, in connection with any personal injury to or death of any persons or loss of/damage to any property, whether employees or property of either Customer, CSXT, or third persons, sustained, incurred, arising, or growing out of operations by Customer or its Agents upon CSXT tracks.

SECTION 4

CUSTOMER SWITCHING

Once CSXT delivers a railcar, pursuant to a line-haul move, to a designated origin, destination, or any other agreed upon point for loading or unloading, any subsequent switching movements may be subject to switching charges. Customers can minimize or reduce their charges for additional switching by planning and loading railcars in a manner that minimizes the need for switching railcars. CSXT’s charges for additional switching are listed below.

CUSTOMER SWITCHING CHARGES (OTHER THAN RAIL SECURITY-SENSITIVE MATERIALS) (4.1)

Intra-Plant Switch	\$200.00 per railcar
Intra-District Switch	\$550.00 per railcar
Locomotive Switch	\$600.00 per locomotive
Extra or Special Switch	\$3,897.00 per occurrence per crew shift (in addition to the above charges)

- Rail Security-Sensitive Materials, as defined by 49 C.F.R. §1580.100(b), may not be tendered for Intra-District Switching, but can only move in line-haul service
- The foregoing charges cannot be used for Reciprocal Switching

SWITCHING ORDERS (4.2)

CSXT will accept Customer switching requests by any of the following electronic or phone methods:

- ShipCSX.com
- Electronic Data Interchange (EDI)
- ShipCSX Mobile
- Interactive Voice Response (IVR) at 1-877-ShipCSX (1-877-744-7279), Prompt 5, Prompt 2, Prompt 5

Requests for extra or special switching should be submitted to CSXT Customer Service.

CSXT reserves the right to decline to perform additional switching within a Customer’s facility.

SECTION 4, CONT.

CUSTOMER SWITCHING

ABSORPTION OF RECIPROCAL SWITCHING AND UNABSORBED RECIPROCAL SWITCH CHARGES (4.3)

CSXT pays the Reciprocal Switching charges assessed by other Carriers when they originate or terminate traffic at facilities not otherwise accessible by CSXT.

- Any portion of the Reciprocal Switching charge that is included in CSXT's line-haul rate is the 'absorbed' portion of the switch charge
- CSXT will absorb Reciprocal Switch charges, unless otherwise provided in a line-haul pricing document, contract, or in subsection 4.4 below
- The difference between the other Carrier's Reciprocal Switch charge and the amount absorbed by CSXT constitutes the Unabsorbed Reciprocal Switch Charge, which will be invoiced to a Customer separately

NON-ABSORPTION OF RECIPROCAL SWITCHING (4.4)

CSXT will not absorb a Reciprocal Switch when:

- CSXT serves both the origin and destination
- CSXT serves either the origin or destination, and the opposite end of the movement is on a short line that only connects, directly or indirectly to CSXT (other than the switch charge of the originating or terminating short line)
- The origin or destination station is on any of the following short line railroads:
 - South Central Florida Express
 - Georgia Central Railway (except for the Savannah, McRae, Helena, Rhine, East Dublin, Dublin and Macon, GA stations)
 - Georgia and Florida Railnet Inc. (except for the Camilla, Albany, Chapco, or Dosaga, GA stations)
 - ARTR - A&R Transport

SECTION 5

SPECIAL SERVICES

SPECIAL TRAIN SERVICE (5.1)

With a fleet that includes everything from boxcars and covered hoppers to flatcars, and more, CSXT can carry almost every type of raw material and finished product imaginable. We also provide specialized rail service for freight that may be challenging or impossible to move with other modes of transportation. This type of freight may include materials that are extraordinarily heavy, large, or feature a high center of gravity.

Requesting Special Train Service (5.1.1)

The planning required to transport specialized goods can be significant and it can take a fair amount of time to both develop the appropriate route and plan and obtain any necessary approvals. Customers needing special service must submit a Special Train Service Authorization Form to us in order to begin that process. Given the specialized nature of the requested service, and of what may be required to provide it, please give us as much notice and information as possible in making the request for special train service.

CSXT works hard to find a route for your specialized goods. If you decide not to tender a load for movement as a Special Train after submitting a Special Train Service Authorization Form, CSXT may bill you \$12,500 for that effort. If you cancel a Special Train less than forty eight (48) hours before your Special Train is scheduled to depart CSXT's origin yard, CSXT may bill you \$25,000 for the costs of arranging for your Special Train.

If a Special Train Service route extends beyond the CSXT network, it is the Customer's responsibility to contact and determine the requirements, limitations, and fees of the other Carrier(s), and to secure permission for access to the other Carrier's network.

If you believe your freight requires Special Train Service, please contact your CSXT Marketing Manager or call CSXT Customer Service at 1-877-744-7279, Prompt 5, Prompt 6.

For dimensional loads, you should start by contacting the CSXT Clearance Bureau at 1-800-581-5049 or Clearance2@csx.com

CSXT reserves the right to accept, reject, or condition all requests for special train service within its network.

Special Train Service Charges (5.1.2)

CSXT charges \$105.00 per mile, via the route of actual movement, subject to a minimum of \$25,000, for Special Train Service. The charge is in addition to, and billed separately from, the otherwise applicable line-haul charges.

- Mileage for moves of dimensional shipments that exceed CSXT's published clearance limitations shall be based on the actual miles moved along the route determined by the Clearance Bureau

SECTION 5, CONT.

SPECIAL SERVICES

INTERNATIONAL SHIPMENTS (5.2)

Rules for International Shipments (5.2.1)

The CSXT network stretches into Canada, serves 70 ports and offers service for freight bound to Mexico. Customers who plan to ship internationally must comply with all customs laws and obtain any and all approvals for the cross-border transportation of their shipments, including any and all clearances associated with their shipment under import and export laws. All necessary or useful documentation with respect to an international shipment must be provided to CSXT in a timely manner. CSXT fully cooperates with governmental authorities in handling international shipments, but does not provide the services of a licensed customs broker. U.S., Canadian, and Mexican border officials require complete import and export documentation associated with, and access to, all Shipments.

- Empty railcars cannot automatically reverse route across U.S.-Canada borders – they must have a separate Shipping Instruction
- Residual amounts of commodities in railcars may require a customs broker to assist in their transit across the border
- Railcars with residual Hazardous Materials, including chemical tank cars, cannot be identified as empty on the Shipping Instruction

Customs and Fees at International Borders (5.2.2)

Proper paperwork is vital to efficient international transportation. If CSXT or another Carrier is forced to set out a railcar from a trans-border train, or to place a railcar on hold status due to incomplete or incorrect Customs documentation, data quality, or at the request of U.S., Canadian or Mexican Customs for any reason, the Customer is responsible for and will be charged for all associated switching charges and any other costs or fees paid by CSXT.

Fees Relating to Canadian Customs Holds (5.2.3)

When CSXT is obliged to hold a railcar awaiting Canadian Customs clearance and release, CSXT will assess an additional \$400.00 (U.S.) per railcar hold fee.

Fees For U.S. Customs and Border Protection (5.2.4)

- When CSXT sets out a railcar from a trans-border train at the request of U.S. Customs and Border Protection for any reason (including compliance, enforcement or random inspection), CSXT will assess an additional \$550.00 (U.S.) per railcar switch charge
- When CSXT holds a railcar due to incomplete or erroneous Customs documentation or data quality, a fee of \$550.00 (U.S.) per railcar applies

Border Fees (5.2.5)

In addition to established line-haul rates and accessorial charges, transborder shipments are also subject to various additional governmental shipping charges. When CSXT is the transborder carrier of record for shipments entering the U.S. from Canada:

- The U.S. Department of Agriculture’s Animal & Plant Health Inspection Services (APHIS) collects a fee of \$2.00 (U.S.) on each railcar crossing the border
- The U.S. Department of Homeland Security’s Customs & Border Protection Service collects a fee of \$8.25 (U.S.) on each railcar crossing the border

CSXT pays the \$10.25 combined fee when it is the transborder carrier of record. CSXT, in turn, charges the shipper of record the \$10.25 (U.S.) fees for each loaded railcar entering the U.S. from Canada. The fees appear on the freight bill with the railcar(s) affected.

Payments In Canada (5.2.6)

If a service associated with accessorial services, including switching but excluding Special Train Service, is performed at a station in Canada, it is billed at the Canadian rate in Section 5.2.7. This also includes unabsorbed amounts of foreign line reciprocal switching charges published in these Terms and Conditions.

Charges for special train service will be billed in the same currency as the line-haul freight charges.

Customer Switching Charges in Canada (5.2.7)

Intra-Plant Switch	C \$200.00 per railcar
Intra-District Switch	C \$550.00 per railcar

TURNING CARS (5.3)

Loading a railcar in a manner that requires unloading from a single side can be unsafe, and is prohibited unless permitted by applicable AAR rules.

For example, AAR rules stipulate that a railcar requiring placement for loading or unloading from a particular side or end must be placarded on both sides and the following written notification must be included on the associated Shipping Instruction:

NOTICE TO CARRIER
Deliver railcar from side or end specified by placard.

If a railcar must be turned, the turning charge will depend on the round-trip distance to and from the turning location. CSXT’s turning charges are:

For a movement within the customer facility:	\$413.00 per railcar
For a movement of 100 miles or less:	\$507.00 per railcar
For a movement of over 100 miles:	\$1,000.00 per railcar

If the turning charge is greater than the line-haul charges for the same movement, CSXT will charge the applicable line-haul charges.

SECTION 5, CONT.

SPECIAL SERVICES

WEIGHING (5.4)

Freight weights are required when used to determine freight charges. CSXT will provide weighing services when acceptable freight weights are not provided by the Customer. When CSXT does not need a weight to determine freight charges and a Customer nevertheless requests that a railcar be weighed, fees are based on where the weighing takes place, as follows:

- Private scales at the facilities of the party requesting the weighing: \$200.00/railcar
- Railroad or other scales not at the facilities of the party requesting the weighing: \$500.00/railcar

Customers may be charged switch charges or line-haul transportation charges for railcars moved to and from scales in addition to the weighing charges.

Once weighed, the gross, tare, and net weights used for billing purposes will be provided to parties named on the Shipping Instructions.

Certifying Customer Scales (5.4.1)

All scales used for weighing railcars must conform to the requirements of the AAR Scale Handbook and CSXT practices and procedures.

Accepting Customer Weights (5.4.2)

A Customer railcar weight will be accepted when the weight meets the requirements of this Section 5.4 and is included on the Shipping Instruction or transmitted to CSXT on a weight certificate. CSXT will also accept weights pursuant to a separate agreement. All weights are subject to verification by the participating Carriers. Customer must furnish the weight to CSXT Customer Billing:

- EDI
- by fax to 1-800-237-1070
- by email to 8004488984@fax.csx.com

Weight Overloads (5.4.3)

Maximum weights and the procedures for handling overloaded railcars are established in CSXT's Open Top and Closed Car Policy, available at CSX.com. A railcar is overloaded if it exceeds the railcar's limit or that of any line segment along the route between origin and destination. If a railcar is overloaded, to the extent practicable, the Consignor may be notified and given an opportunity to take corrective action.

- CSXT may apply a charge of \$750.00 for each overloaded railcar; additional handling fees may also apply
- Overloaded railcars shall be subject to demurrage charges until corrective action is completed
- If an additional railcar is needed to transport part of the overload, the rate for transporting that extra railcar will be determined as if it were traveling the originally billed route under the same commodity-specific public price or private contract price as the originally overloaded railcar

UNIT TRAINS (5.5)

CSXT uses a reservation process, the Unit Train Management System, to match consignee demand, consignor supply and CSXT capacity to achieve efficient and reliable unit train operations. The reservation system must be used by all parties for each step in the reservation process, from the initial reservation request through the release and rerouting to an origin of the empty Railcars after unloading. The Unit Train Management System instructions on how to use it are located at www.shipcsx.com.

Service Limitations (5.5.1)

The Unit Train Management System:

- Does NOT establish binding commitments on any of the parties to a reservation except as specifically stated in ShipCSX.
- Does NOT constitute a tender or an offer of a particular contract for transportation.

Monthly Pro Rata Scheduling (5.5.2)

Customers desiring unit train transportation service must provide proposed monthly loading schedules to CSXT through ShipCSX. These monthly loading schedules must include all volume, timing, and loading information requested by the Unit Train Management System. Customers must endeavor to include in each proposed monthly loading schedule a pro rata portion of the shipments Customer expects to tender during any given annual or other applicable period.

Change Requests (5.5.3)

Customers may submit a reservation change request until 1400 hours (EST) on the day two calendar days prior to the projected load date. The charge for any manual processing of a timely change request is \$35. Any customer initiating a reservation change after that time for reasons other than force majeure may be charged a rescheduling charge of \$2,500 per incident.

Holding of Equipment (5.5.4)

When CSXT's locomotives or unit trains are held other than for CSXT's convenience, CSXT may assess the responsible customer a charge of \$1,800 per locomotive per day.

Recrewing (5.5.5)

When customer actions result in CSXT having to recrew a unit train, CSXT may charge the customer a recrew charge of \$2,400.

SECTION 6

PAYMENT

CREDIT TERM, PAYMENT OF CHARGES AND FINANCE CHARGES (6.1)

Payment of Charges – Non-Credit Customers (6.1.1)

Customers who have not applied for and received credit approval with CSXT, or who have had their credit suspended by CSXT, must pay line-haul freight charges and other applicable fees IN FULL:

- Prior to CSXT's acceptance of a Shipment at origin if tendered 'prepaid' or
- Prior to placement of a Shipment at destination if tendered 'collect'

CSXT may transport or tender Shipments for non-credit Customers prior to receipt of payment of charges as otherwise specified here. In those instances, all charges are due upon receipt of the associated bill or invoice. Customers that fail to pay by the date specified will be assessed late fees and finance charges.

Establishment of Credit and Credit Agreement (6.1.2)

CSXT offers credit agreements to qualifying Customers. To apply, or to make arrangements for the electronic transfer and payment of charges, please complete a Credit Application and Agreement found at <http://.shipcsx.com/public/ec.freightbillpublic/AppForm>, or call 1-904-366-3807. Applications may be requested in writing by contacting:

Credit Administration
CSX Transportation, Inc. – J220
Headquarters Building, 8th Floor
500 Water Street
Jacksonville, FL 32202

CSXT reserves the right, in its sole discretion, to establish or not establish credit for any Customer.

Cancellation of Credit (6.1.3)

CSXT reserves the right, in its sole discretion, to maintain or cancel credit for any Customer.

Credit Term (6.1.4)

Payment in full of all line-haul freight charges, switching charges and accessorial charges must be received by CSXT from Customers within 15 days of the date of the applicable CSXT bill.

No Set Off of Charges (6.1.5)

Customers may not set off or otherwise withhold payment of any CSXT charge due to any alleged overcharge, freight damage or other dispute with CSXT.

SECTION 6, CONT.

PAYMENT

Finance Charges (6.1.6)

CSXT may assess a finance charge of 12% per year (0.0329% per day) on charges that are not received by CSXT when due. The finance charge:

- WILL NOT apply against disputed charges that are found by CSXT to have been billed incorrectly. Finance charges will, however, be assessed if a corrected invoice is not paid within terms from the date of that corrected invoice
- WILL be assessed on the unpaid balance of any charge from the first day following the due date through the date of receipt of payment in full
- WILL be billed monthly for all charges that were paid late in the prior calendar month

Late Payments (6.1.7)

Late payments are subject to a 10% fee on the outstanding balance of any charge that is not received by CSXT when due. The late fee:

- Is assessed in addition to the finance charge outlined above
- Will not apply against any disputed charge found by CSXT to have been incorrectly billed

Usury Law Compliance (6.1.8)

CSXT's policies on finance charges and late payment fees are designed to comply with usury laws. If either charge, or the combination of finance charge and late fees, exceeds allowable limits, then the applicable rate(s) will be automatically reduced to the maximum allowed.

Collection Costs (6.1.9)

Customers are expected to pay all of the costs billed to them. All expenses incurred by CSXT to collect money owed, including, but not limited to, attorneys' fees, investigation and expert fees, and the costs of litigation shall be paid by the Customer.

PROCEDURES FOR DISPUTING INVOICES (6.2)

CSXT is committed to resolving disputed invoices fairly and efficiently. A Customer who wishes to dispute a charge should submit their dispute electronically via ShipCSX. In order to be processed, a dispute should be submitted within 15 days, and must be:

- Clearly and fully described
- Specific in identifying the reasons for the claim
- Complete in the supporting documentation provided

Once filed, a CSXT Customer Account Associate will investigate and report the company's acceptance or denial of the claim in writing. Customers must pay all undisputed portions of the bill as stated.

OVERCHARGE CLAIMS (6.3)

Overcharge Claims must be filed within one year of original invoice.

SECTION 7

CLAIMS FOR DAMAGE TO, OR DELAY OR LOSS OF, FREIGHT

CSXT is committed to serving our Customers with safe, reliable rail transportation. In the event that freight is damaged or misplaced, we will promptly address your concerns as described below.

Report any loss or damage through ShipCSX.

Freight claims for loss or delay of, or damage to, cargo should be reported through the ShipCSX Freight Claims tool. Log in to ShipCSX, locate the “Resources” pull down menu, and select “Claims Management.” For help with ShipCSX, call 1-877-ShipCSX (1-877-744-7279), option 2.

CARMACK AMENDMENT PROTECTIONS (7.1)

[General Carmack Protections \(7.1.1\)](#)

CSXT offers Carmack Amendment protection tailored to the commodity and route over which a Customer is asking CSXT to transport its freight. If desired, please contact your CSXT sales representative to receive a specific rate quote with Carmack Amendment protections. If Carmack Amendment protection is desired for a shipment that extends beyond the CSXT network, it is the Customer’s responsibility to contact and determine the requirements, limitations, and fees of the other Carrier(s), and to obtain Carmack Amendment protection from the other Carrier(s).

[Declared Value Protections \(7.1.2\)](#)

Any Customer that wants CSXT to assume liability for damages up to a declared value of the goods being shipped without requesting a tailored rate quote pursuant to subsection 7.1.1. must send an email to CarmackRequest@csx.com, before tendering the goods to CSXT, that includes:

- A statement declaring the election of Carmack Amendment protection and the value of the shipment, and
- Acknowledgement that the Carmack Premium, as defined below, will be added to their invoices, or billed to them separately, in accordance with Railway Accounting Rule 11

The Customer must also provide railcar and waybill numbers for each affected railcar to CSXT as soon as reasonably possible at CarmackRequest@csx.com.

The “Carmack Premium” portion of the line-haul rate is equal to 10% of the declared value of the goods and added to the common carrier line-haul price.

[Limitation and Waiver \(7.1.3.\)](#)

CSXT’s liability for loss of, or damage to, goods in transit under this subsection 7.1 cannot exceed, and is limited to, the lesser of value of the goods, or the declared value, if applicable. Carmack Amendment protection is waived, and the provisions of subsection 7.2 shall apply, in the absence of an election by the Customer under subsections 7.1.1 or 7.1.2 above.

SECTION 7, CONT.

CLAIMS FOR DAMAGE TO, OR DELAY OR LOSS OF, FREIGHT

ALTERNATIVE APPROACH TO DAMAGE, DELAY, AND LOSS CLAIMS (7.2)

If you do not elect Carmack Amendment protections, CSXT will assume liability for freight claims subject to the following limitations:

- The minimum claim for loss or damage to freight is \$250.00
- Our liability for a shortage of goods shall be conditioned upon evidence of unauthorized entry into the railcar while it is in the possession of CSXT
- CSXT's maximum liability for loss or delay of, or damage to, the freight is one hundred thousand dollars (\$100,000) per railcar
- CSXT shall not be responsible for loss of or damage to the freight of shipments originating or terminating outside the United States when the location at which the damage occurred is not known
- Individual pricing documents may contain different limits which take precedence over the terms in this subsection 7.2

Subject to the limitations in this subsection 7.2, and the remaining provisions of Section 7, claims for loss, damage or delay to any commodity transported by CSXT is governed in all other respects by the provisions of the Carmack Amendment and Title 49 of the Code of Federal Regulations Part 1005 and the laws of the State of Florida (other than provisions addressing conflicts of laws).

TIME LIMITS FOR FILING CLAIMS AND LAWSUITS (7.3)

CSXT liability for loss, delay, and damage is contingent upon CSXT, or the railroad delivering interline Shipments, receiving immediate notification of all noted visible losses or damages discovered during the unloading of a railcar.

- Loss or damage discovered other than between 8:00 a.m. and 5:00 p.m., Monday-Friday shall be reported no later than 24 hours following unloading from the railcar
- Saturdays, Sundays and Holidays are excluded
- Concealed damage must be reported immediately upon discovery and made available for inspection at point of delivery
- Any claim for loss or damage must be filed within nine months of the date the shipment was delivered, or in the case of failure to make delivery, then within nine months after a reasonable time for delivery
- Any lawsuit or other action for the enforcement or liability for loss of damage must be instituted within two years and one day after CSXT first declines the claim
- Any claim or lawsuit not filed within the periods set forth in the preceding sentences is waived by the Customer

MITIGATION OF DAMAGES; SET OFF (7.4)

Customers have the responsibility to exercise reasonable and good faith efforts to mitigate their damages. Mitigation may include salvage sale; however, in the event that Customers are unable or unwilling to do so, the damaged freight shall be offered to CSXT for salvage.

CSXT reserves the right to set off any amounts owed to a Customer due to a claim for loss or damage to freight against any and all amounts that Customer owes to CSXT.

RIGHT TO SELL ABANDONED, REFUSED, OR UNCLAIMED PROPERTY (7.5)

Freight that is:

- Abandoned by the Consignor and Consignee
- Refused by the Consignor and the Consignee
- Unclaimed within 15 days after notice is issued to the Consignor and Consignee

...may be sold by CSXT in accordance with applicable law. The proceeds of any sale will be applied to the payment of all transportation and other lawful charges and expenses incurred by CSXT and any balance will be paid to the owner of the freight sold by CSXT.

CARGO SEALS (7.6)

CSXT does not furnish, apply, verify, or inspect cargo seals.

- When seals are applied, all doors, hatches, valves and other openings on the railcar must be sealed
- Consignor must include each seal number and the name of the employee applying the seal(s) in its Shipping Instructions
- CSXT will not honor claims for loss, damage, or contamination of railcar contents based solely on the absence of one or more seals at the time of delivery at destination
- Claims for loss or damage are honored only when there is clear and convincing evidence of actual loss, damage, or contamination other than the mere absence of one or more seals, or apparent compromise of a seal that was applied before movement

CSXT reserves the right to audit, at CSXT's expense, the Consignor's on-site seal records.

GENERAL DEFENSES (7.7)

Improper Loading (7.7.1)

A Customer's failure to comply with requirements of the Uniform Freight Classification and AAR loading provisions constitutes a complete defense to any claim for damage. In addition:

Bill of Lading and other Traditional Defenses (7.7.2)

CSXT shall not be liable for any loss, damage or delay caused by:

- An act of God
- The public enemy
- The authority of law
- The act or default of the shipper or owner
- Natural shrinkage of product
- Riots or strikes
- A defect or vice in the property, or
- Country damage to cotton

CSXT's liability shall be that of a warehouseman for loss, damage, or delay occurring:

- After Actual or Constructive Placement of the property at destination, or
- After any other tender of delivery of the property to the party entitled to receive it

Except in the case of a breach by CSXT of the Contract of Carriage, CSXT shall not be liable for loss, damage or delay occurring while the property is stopped and held in transit upon the request of the shipper, owner or party entitled to make such request.

SECTION 7, CONT.

CLAIMS FOR DAMAGE TO, OR DELAY OR LOSS OF, FREIGHT

CSXT's liability shall be that of a warehouseman for loss, damage, or delay caused by fire occurring after the expiration of the free time allowed by these Terms and Conditions after notice of the arrival of the property at destination or at the port of export has been sent and given, and after placement of the property for delivery at destination, or tender of delivery of the property to the party entitled to receive it, has been made.

SPECIAL AND CONSEQUENTIAL DAMAGES (7.8)

To the maximum extent permitted by applicable law, CSXT is not liable for special or consequential damages, including market decline claims, products deterioration, or other such claims based on delay in transportation, punitive damages or attorney fees.

ADDITIONAL LIMITATIONS FOR SHIPMENTS THROUGH MEXICO (7.9)

For any Shipment with either a rail origin or rail destination in Mexico which moves over CSXT:

- (1) CSXT is not responsible for any loss of or damage to the cargo occurring in Mexico.
- (2) CSXT is not responsible for unlocated loss of or damage to the lading unless the claimant can show by preponderance of the evidence that the loss of or damage to the lading occurred in the United States and is otherwise compensable under this Section 7.
- (3) All claims for loss of or damage to lading occurring in Mexico must be presented to the Mexican rail carrier. Filing of a claim with the Mexican rail carrier does not constitute filing of a claim with CSXT.
- (4) CSXT is not responsible for any expenses or losses incurred by a Customer from delays and problems in clearing Customs.

SPECIAL LIMITATIONS FOR SHIPMENTS OF VEHICLES (7.10)

Any loose items or uninstalled vehicle components in any vehicle transported by CSXT are tendered to CSXT at the sole risk of loss of shipper.

Only one claim may be filed for any individual vehicle.

SECTION 8

RAIL-TO-RAIL BILLING

CSXT works closely with other Class I and shortline railroads to promote the timely, efficient and error-free transfer of railcars and billing for our Customers' interline shipments. If you have any questions about the following policies and rates regarding rail-to-rail services, please contact your CSXT account representative.

INTERMEDIATE SWITCHING SERVICES (8.1)

Intermediate switching refers to the movement within a station by one Carrier of railcars between a second Carrier's and a third Carrier's tracks, when carriers two and three do not directly connect. Generally, CSXT charges other Carriers a fee of \$105 per railcar or per platform for intermediate switching movements in regular train operations, and the following rates if an intermediate switching movement cannot be handled in regular train operations:

- With a special train operation, for the first five railcars in the same movement: \$3,597.00 per movement and
- For each additional railcar in excess of five in the same movement: \$163.00

The following exceptions to service, and to rates applicable during regular train operations, apply to intermediate switching at the locations specified below:

LOCATION	APPLICATION	SWITCHING CHARGES Dollars per car
Baltimore, MD	Between any two carriers	\$220.00
Buffalo, NY	Between any two carriers	\$175.00
Columbus, OH	Will not apply on Auto Parts shipped in 86' boxcars, or on racks returned in the reverse direction, when CSXT contributes cars to a pool for such movements. All traffic terminating on the IORY except: traffic (A) to/from Griffin Wheel, Groveport, OH, and (B) Cereals cooked (STCC 20 431 XX) and cereals uncooked (STCC 20 432 XX) to Ralston Purina, Lancaster, OH, and originating at non-CSXT served origins which are subject to the general charge.	\$268.00 for loaded cars
Detroit, MI	Between DC and CPRS	\$31.00
Erie, PA	Between BPRR and NS or EEC	\$189.00
Evansville, IN	Between ISRR or ISW and NS	\$87.00
Grand Rapids, MI	Between GDLK, MQT, or GR	\$300 each way
Jacksonville, FL	Between FEC and TTR (This charge includes the reciprocal switching charge of TTR)	\$196.00 for loaded cars \$105.00 for empty cars

Utica, NY	Between MHWA and NYSW	\$170.00
Zanesville, OH	Between OHCR and OSRR South Zanesville, OH	\$42.00
All locations	Switching locomotives moving on own wheels: Charges will apply in each direction when the locomotive is moved for turning	\$600.00 per locomotive

SECTION 8, CONT.

RAIL-TO-RAIL BILLING

RECIPROCAL SWITCHING SERVICES (8.2)

Application of Reciprocal Switching Charges (8.2.1)

CSXT provides, subject to the exceptions in Section 8.2.2, Reciprocal Switching for the specific Customers, with the identified interchange partners, and for the charges listed in Appendix 9.1.

- Charges for CSXT Reciprocal Switching are the responsibility of the line-haul carrier handling the loaded railcar from or to the station at which the reciprocal switch occurs
- Any charges assessed by an intermediate railroad providing an intermediate switch will be added to the reciprocal switch charges assessed by CSXT

Reciprocal Switching Exceptions (8.2.2)

CSXT does not provide Reciprocal Switching Services for:

- Special train shipments, or dimensional loads. See Section 5.1
- Traffic handled on automax, bi-level, or tri-level railcars
- Railway equipment, empty, moving on own wheels, including:
 - Railcars (STCC 37-422) not in revenue service
 - Locomotives or Tenders (STCC 37-411)
 - Maintenance or Repair Cars (STCC 37-424)
 - Passenger Train Cars (STCC 37-421)
 - Street Cars or self-propelled railroad cars (STCC 37-423)
- Traffic to or from Team Tracks or Lease Tracks
- Unit trains, except as specifically referenced in the table in Section 9

Restricted Reciprocal Switching (8.2.3)

When Reciprocal Switching for a given Customer facility is noted as restricted in Appendix 9.1. CSXT may require the line-haul carrier to provide sufficient documentation to verify that the shipment is eligible for reciprocal switching before we accept the railcar.

- CSXT may audit the line-haul carrier's records to confirm that all cars switched into that Customer's facility were eligible for reciprocal switching
- Railcars delivered for reciprocal switching in violation of a restriction shall be subject to CSXT line-haul charges for the railcar's movement

INTERCHANGE ERROR MOVEMENTS (8.3)

In the event CSXT receives cars in error or without necessary forwarding instructions, the AAR's Car Service Rule #7 applies.

If railcars are returned, forwarded or require holding, CSXT may assess the corresponding charge listed in Appendix 9.3 against the Carrier that misdelivered the railcar to us. CSXT may also apply a charge of three dollars (\$3.00) per mile traveled when CSXT has transported such railcar away from the interchange location.

RAILROAD SCAC CODES (8.4)

Railroad reporting marks can be found at: www.railserve.com/aar_railroad_reporting_marks.html

SECTION 9.

APPENDIX

CUSTOMERS ELIGIBLE FOR RECIPROCAL SWITCHING (9.1)

NOTE: For the Industries marked with *, the following rules apply:

CSXT will only perform reciprocal switching at ORIGIN when: (1) the destination is a local station on the originating line-haul carrier; (2) the destination is a local station on a line-haul carrier whose only interchange is with the originating line-haul carrier; or (3) the destination is not served by CSXT, but is served by the originating line-haul carrier and by one or more other carriers, which also serve the origin.

CSXT will only perform reciprocal switching at DESTINATION when: (1) the origin is a local station on the destination line-haul carrier; (2) the origin is a local station on a line-haul carrier whose only interchange is with the destination line-haul carrier; or (3) the origin is not served by CSXT, but is served by the destination line-haul carrier and by one or more other carriers, which also serve the destination.

RECIPROCAL SWITCHING IN CANADA (9.2)

LOCATION	SWITCHING CHARGES (In dollars per car)		
Canada:	Column 1: General		
Windsor, ON (CN-ETL)	Column 2: Applicable when in cuts of not less than 60 cars destined to or originating from a single shipper at a siding.		
Adirondack Jct, PQ (CP)			
Beauharnois, PQ (CN)			
Cecile Jct, PQ (CN)			
Huntingdon, PQ (CN)			
Sarnia, ON (CN)			
	Zone (See Below)	Column 1 Single Cars	Column 2 60 Cars
	1	C\$229.00	C\$46.00
	2	C\$248.00	C\$55.00
	3	C\$284.00	C\$65.00
	4	C\$251.00	C\$74.00

EXPLANATION OF ZONES**ZONES 1, 2, AND 3:**

Includes sidings located wholly or partially within the stated distances and will be measured along the line of CSXT trackage, from the interchange of the connecting carrier for whom the reciprocal switching is performed:

ZONE 1 – 6.4 KM (3.98 miles)

ZONE 2 – 10 KM (6.21 miles)

ZONE 3 – 20 KM (12.43 miles)

ZONE 4:

Includes sidings located wholly or partially within a radius of 30 KM (18.64 miles) of the interchange of the connecting carrier for whom the reciprocal switching is performed, and wholly outside **Zones 1, 2, and 3**. Where a siding is located wholly or partially within **Zone 4** and the point of connection with the siding is more than 40 KM (24.86 miles) from the interchange along the line of CSXT trackage, an additional charge of: \$3.75 (**Col 1**)/\$1.45 (**Col 2**), per kilometer, per car, will be assessed. This charge will be computed on the distance from the point located 40 KM (24.86) miles) beyond the interchange to the point of connection with the siding on the line of CSXT trackage.

GLOSSARY (9.4)

The following definitions are provided solely as a reference to certain words and phrases used in relation to these Terms and Conditions; they are not intended to serve as complete definitions or to counter definitions that may appear in other CSXT or industry publications.

AAR – The Association of American Railroads is the industry's leading trade organization, and is dedicated to improving the efficiency, safety and service of the railroad industry.

Actual Placement – The placement of a railcar at origin or destination, or any other agreed upon point, for loading or unloading.

Agent – Any third party performing an obligation of a Customer under these Terms and Conditions or a contract with CSXT.

Carmack Amendment – Title 49 of the United States Code, section 11706, and associated regulations.

Carrier – CSXT and any other participating rail common carrier.

Carrier Car – Any railcar owned or leased by a rail common carrier.

Close Clearance – Any track clearance not in compliance with the requirements of CSXT's current Standard Guidelines and Specifications for the Design and Construction of Private Sidetracks.

Consignee – The party to whom a shipment is consigned. The Consignee is usually, but does not have to be, the Receiver.

Consignor – The party in whose name a railcar is ordered for loading; the party consigning a shipment; or the party who furnishes forwarding instructions. The Consignor is often, but not always, the Freight Payer.

Constructive Placement – The holding of a railcar on CSXT's tracks when Actual Placement of the railcar is not possible due to causes attributable to the Customer, in whole or in part.

Contract of Carriage – the contract or quasi-contract for transportation established by the Shipping Instruction, whether pursuant to common carrier pricing or a commercial contract between CSXT and a Customer.

Customer – Any Consignor, Consignee, Receiver, or Freight Payer.

Day – A twenty-four (24) hour period (calendar day), or part thereof.

Demurrage – The fee imposed for the extended usage of a CSXT asset attributable to the Customer.

Dimensional Load – A Shipment that exceeds CSXT's standard published clearances for a specific route of movement.

Diversion – An order provided by a Freight Payer or its Agent instructing that a railcar be delivered to a location other than the one indicated on the original Shipping Instruction.

Force Majeure Event – The following conditions are, or are deemed to be, Force Majeure Events: Act of God; authority of law; labor dispute; weather impediments; fire explosion; war; Insurrection; threatened or actual act of terrorism; or other like causes beyond one's reasonable control. Downturns

in the economy and changes in market conditions are NOT considered force majeure conditions. Force majeure can not excuse non-compliance with safety requirements and regulations.

Freight Payer – The Customer primarily responsible for paying the line-haul freight charges for transportation provided by CSXT.

Freight Payer Assigned Railcar – Specific empty railcar assigned to a particular Freight Payer for their exclusive use.

Governmental Requirements – Any and all laws, regulations, governmental rules, and orders.

Hazardous Materials – Materials categorized as hazardous materials by the U.S. Department of Transportation under the Hazardous Materials Transportation Act (49 U.S.C. §§ 1801, et seq.) and the Hazardous Materials Regulations (49 C.F.R. Parts 170-179) issued thereunder, as amended from time to time.

Intermediate Switch – The movement of railcars in switch service from the interchange tracks of one carrier to the interchange tracks of another carrier at the same station.

Intra-District Switch – The movement of railcars from one location to another within the switching limits of a station or switching district.

Intra-Plant Switch – A switching movement from one location to another location within the confines of a Customer facility.

Joint Terminal – A terminal at a station served by CSXT that is operated jointly by CSXT and another railroad.

Lease Track – Track leased to a Customer through a written lease agreement.

Loading – The complete or partial loading of a railcar in conformity with loading and clearance rules.

Loaded Railcar – A railcar that is completely or partially loaded.

Locomotive Switch – A movement of a locomotive within a switch district, wherein the locomotive moves on its own wheels but not under its own power.

Order Date – The date for which a Customer requests a railcar to be furnished for loading or unloading.

Placement – Refers to either Constructive Placement or Actual Placement.

Private Car – A railcar that is not owned or leased by a rail common carrier.

Private Car Storage – The fee imposed for the occupation of CSXT's owned or controlled tracks by a Private Car.

Private Track – Tracks that are not owned or leased by CSXT.

Receiver – The party to whom the Shipment is to be physically delivered.

Reciprocal Switch – The movement in switching service for loading or unloading, immediately preceding or following a line-haul movement in revenue service over another railroad, from or to the point of interchange with the connecting railroad at the stations identified in Appendix 9.1.

Reconsignment – The issuance of a new Shipping Instruction by the Freight Payer that changes the Consignee of a railcar, or a change in the Freight Payer of a Shipment.

Release – Occurs when CSXT is advised that a railcar, identified by number and location, is empty, or when new Shipping Instructions are received. Railcars may only be released when it is accessible to CSXT's crew to pull.

Reloading – When a railcar that has been unloaded by a Customer is held for loading by the same Customer.

RSSM – Rail Security-Sensitive Materials from one or more of the categories and quantities of hazardous materials set forth in 49 C.F.R. §1580.100(b), including:

- (1) A railcar containing more than 2,268 kg (5,000 lbs) of a Division 1.1, 1.2, or 1.3 (explosive) material, as defined in 49 CFR 173.50;
- (2) A tank car containing a material poisonous by inhalation as defined in 49 CFR 171.8, including anhydrous ammonia, Division 2.3 gases poisonous by inhalation as set forth in 49 CFR 173.115(c), and Division 6.1 liquids meeting the defining criteria in 49 CFR 173.132(a)(1)(iii) and assigned to hazard zone A or hazard zone B in accordance with 49 CFR 173.133(a), excluding residue quantities of these materials; and
- (3) A railcar containing a highway route-controlled quantity of a Class 7 (radioactive) material, as defined in 49 CFR 173.403.

Shipment – Any railcar(s) Tendered to CSXT for transportation.

Shipping Instruction – A Uniform Straight Bill of Lading or Electronic Data Interchange packet in a form acceptable to CSXT.

Sidetrack – any Private Track that provides access to a Customer facility.

Station – Any location included in the Tariff OPSL 6000-Series.

Team Track – Any tracks owned or controlled by CSXT that are designated by CSXT as team tracks where railcars may be loaded and unloaded by multiple third parties.

Tender – The notification of arrival or Constructive Placement, or the Actual Placement, of an empty or loaded railcar at a Customer facility; or the notification, by a Consignor or Consignee to a Carrier, that a railcar is ready for pick-up.

Tolerance – The greatest acceptable difference in weights due to variation in scales or weighing technique.

Ton – 2,000 pounds, avoirdupois weight.

Uniform Freight Classification – The Freight Tariff Uniform Freight Classification 6000 Series tariff published by Railinc.

QUICK LIST OF CHARGES (9.4.1)

Here is a convenient list of the most common, but not all, charges established in these Terms and Conditions:

CHARGE NAME	SECTION	CHARGE AMOUNT
MANUAL SHIPPING INSTRUCTIONS	1.2.1	\$50.00 per faxed shipping instruction for carload shipments \$500.00 per faxed shipping instruction for unit trains
RECONSIGNMENT	1.2.4	\$275.00 per railcar \$2,750.00 for blocks of 10 or more railcars
DIVERSION	1.2.4	\$275.00 per railcar \$2,750.00 for blocks of 10 or more railcars
LATE DELIVERY OF SHIPPING INSTRUCTIONS	1.2.5	\$500.00 per railcar
SAFE LOADING OF RAILCARS	1.3.2	\$750 per unsafely loaded railcar plus applicable demurrage charges
CLEANING CARS	1.3.3	\$600.00 per railcar
EMPTY CARRIER CARS ORDER AND NOT USED	1.3.4	\$330.00 per railcar - placed at industry \$165.00 per railcar - cancelled prior to placement
FURNISHING CARRIER RAILCARS THAT SUBSEQUENTLY MOVE ON ANOTHER CARRIER	1.3.5	\$2,000.00 per Carrier car
EXCESSIVE DETENTION OF CARRIER CARS (CARS NOT RELEASED IN 15 DAYS)	2.1.3	\$100 per car per day
HOLDING HEAVY DUTY FLAT CAR SHORT OF DESTINATION	2.3.1	\$500 per car per day
DEMURRAGE	2.4	see page 12 for chart
PRIVATE CAR STORAGE	2.4	see page 12 for chart
SIDETRACK CONTINUATION CHARGE	3.1.9	\$10,000 0-5 Annual Carloads \$7,500 6-9 Annual Carloads
INTRA-PLANT SWITCHING	4.1	\$200.00 per railcar
INTRA-DISTRICT SWITCHING	4.1	\$550.00 per railcar
LOCOMOTIVE SWITCH	4.1	\$600.00 per locomotive
EXTRA OR SPECIAL SWITCH	4.1	\$3,897.00 per occurrence per crew shift
SPECIAL TRAIN SERVICE	5.1.2	\$105.00 per mile, minimum of \$25,000.00
CANADIAN CUSTOMS HOLDS	5.2.3	\$400.00 (U.S.) per railcar hold fee
BORDER PROTECTION	5.2.4	\$550.00 (U.S.) per railcar switch charge
U.S. CUSTOMS	5.2.4	\$550.00 (U.S.) per railcar
APHIS	5.2.5	\$2.00 (U.S.) per railcar
COBRA	5.2.5	\$8.25 (U.S.) per railcar

CHARGE NAME	SECTION	CHARGE AMOUNT
TURNING CARS	5.3	\$413.00 per railcar - within the customer facility
		\$507.00 per railcar - 100 miles or less
		\$1,000.00 per railcar - over 100 miles
WEIGHING	5.4	\$200.00 per railcar - private scales
		\$500.00 per railcar - railroad scales
OVERLOAD	5.4.3	\$750.00 per overloaded railcar, plus applicable demurrage charges
UNIT TRAIN RESERVATION	5.5.3	\$2,500 - changes made <48 hours notice
HOLDING OF EQUIPMENT	5.5.4	\$1,800 per locomotive per day
RECREWING	5.5.5	\$2,400.00 per recrew

THANK YOU FOR CHOOSING CSX AS YOUR TRANSPORTATION PARTNER.

If you have any questions about the terms and conditions,
or about anything related to CSX, please contact:
1-877-ShipCSX (1-877-744-7279).

DID YOU KNOW...

1. Moving freight by rail is 3-5 times more fuel-efficient than moving freight on the highway.
2. CSX trains can move one ton of freight over 450 miles on a single gallon of fuel.
3. One intermodal train can carry the load of more than 280 trucks.
4. Each bulk and merchandise train can carry the load of up to 500 trucks.
5. New CSX locomotives can save approximately 12,600 gallons of diesel fuel each year.
6. Moving freight by rail instead of truck reduces greenhouse gas emission by 75 percent.
7. If just 10 percent of long-haul freight currently moving by truck moved by rail, it would conserve over 1 BILLION gallons of fuel and reduce greenhouse gas emissions by more than 12 million tons each year.
